## Events of edacentrum and Partners

The edacentrum acts as a mediator for the exchange of information concerning microelectronics and EDA. In this role it organizes the [edaForum](#), the [edaWorkshop](#) as well as [Technical and Cooperation Workshops](#) and project workshops. For a comprehensive and useful representation with a searching functionality it provides a conference calendar named [edaCalendar](#). Moreover, it supports events whose aim is the technical exchange of information in this area. The following tables show lists of selected future and past events in this context.

## University Booth at DATE 2020

The University Booth fosters the transfer of academic work to industry. Prototypes are valuable demonstrators to express and compare the competitiveness of new EDA methodologies and hardware solutions. Universities and public research institutes are invited to submit their hardware platforms, prototype tools and pre-commercial results for DATE
