

Update of ECS SRA for 2020 available

[1]

For the first time, the three industry associations [AENEAS](#) [2], [ARTEMIS-IA](#) [3] and [EPoSS](#) [4] have joined together to produce a common Strategic Research Agenda (SRA) on electronic components and systems (ECS), that incorporates the entire value chain (see [AENEAS press release](#) [5]). For the second time this agenda has been updated and the result of this work has been published on January 15, 2020. In this "Electronic Components & Systems Strategic Research Agenda" ([ECS-SRA](#) [6]) the three associations present their visions for a digital Europe, the most important applications as well as the challenges and solutions for research, development and innovation in electronic components and systems. The updated document, the ECS SRA 2020 is available [here](#) [7] on the AENEAS website.
